SAMSUNG SDI
Creative Energy & Materials Solution Leader

Samsung SDI is leading the change of a new era with lithium-ion batteries.

Through our constant innovation towards excellence, we led with the technological superiority of our innovative IT devices and expanded into electric cars which have now become reality. In addition, we are contributing to the expansion of an eco-friendly environment by the deployment of batteries for energy storage.

We are all dreaming of a better future with BoT (Battery of Things) in which Samsung SDI will provide solutions for the world.

Established Samsung SDI Began Lithium-ion Battery Business Expanded Business into Energy Storage

Powering Tomorrow, Samsung SDI Battery Solution for Energy Storage

Samsung SDI’s technology supplies eco-friendly energy solutions for the present and the future. We provide safe, reliable and long-lasting performance with our Energy Storage solutions. ESS projects are deployed using Samsung SDI’s battery solutions optimized for a range from residential to utility-scale projects.

Utility & Commercial

Optimized Battery Platforms Based on High-Density Design Technology

- Solar & Wind Farm
- Grid (Substation)
- Building, Factory

UPS

Lithium-ion Solution

Proven High-Voltage LIB Solutions Compatible with Premium UPS

- Data Center
- Factory

Residential & Telecom

Scalable Standard Battery Pack for Customized ESS

- PV Home
- Telecom
Why Samsung SDI

Samsung SDI optimizes battery systems with advanced cell technology.

Safety First

Safety first is Samsung SDI priority. Prismatic cell has multi-layered protection at the cell level resulting in best in class safety. In addition, the aluminum exterior has excellent thermal conductivity and cooling performance, and it releases high temperature safely and efficiently from the inside to the outside.

Long Cycle Life

Industry Leading Cycle Life Performance

6,000 Cycles
@ continuous 1C /1C, SOH 80%

Samsung SDI ESS leverages our manufacturing experience in IT and automotive battery cells resulting in superior and adaptive technology. Samsung SDI ESS is recognized as the industry leader in the market, providing our customers with the safest and long lasting batteries.

Multi-Layered Protection

Aluminum can with high cooling efficiency

Sustainable Design

Easy to Upgrade

Capacity without Design Change

We are continuously innovating to increase the energy density while maintaining the same form factor and cell dimensions, thus facilitating future upgrades to higher capacity, higher energy density, ESS with no change to pack design.

Accurate Lifetime Simulation

Samsung SDI offers optimal battery solution with its superior lifetime prediction technology. We design and propose a battery system with analyzing the various parameter such as purpose, operation period and installation environment.

Operation Planning

Optimal Battery Solution
Energy density has increased more than 18% with upgrades to Samsung SDI’s new advanced cell.

Higher density enables better footprint and installation cost savings.

**Energy Platform**  
Over 2 hours

- Energy density has increased more than 18% with upgrades to Samsung SDI’s new advanced cell.
- Higher density enables better footprint and installation cost savings.

**Medium Platform**  
1 hour up to 45 minutes

- Unique Platform in the ESS Industry with Mid-range Capabilities.
- Optimized Solution for around One hour of Grid Service.
- The Highest Lifetime Performance in a Continuous Charge/Discharge for 1 hour.

**Power Platform**  
30 minutes up to 20 minutes

- High Power Platform Optimized for Less than 30 minutes of Use.
- Optimized Solution for Power Applications such as F/R, Railway, Ship, etc.

*2019 Mass Production
Batteries for UPS
Uninterruptible Power Supply

Proven High-Voltage LIB Solutions
Compatible with Premium UPS

Benefits of Lithium-ion Batteries

Benefits:
- Less Space / Weight
- Longer Life
- Fast Charge / Discharge Rate

Why Samsung SDI
- Only Samsung SDI can provide a 10 minute backup battery solution
- Compatible with Global UPS Battery Solutions
- Proven Safety & Quality
- Global Reference to IDC, a Factory in Operation for over 5 years

Residential & Telecom

Scalable Standard Battery Pack for Customized ESS

PV Storage / Off-Grid Backup

- PV Storage
  - High Energy 94Ah Prismatic Cell
  - High Energy Density & Long Cycle Life
  - Available up to 1C-rate
  - Fits on 19 inch Standard Rack
  - Wide Temperature Range

- Off-Grid Backup
  - Standard Module for Various Customer Needs
  - Scalable Voltage & Capacity
  - Advanced High Capacity and Long Lifecycle
  - Easy to Install by Simple Module Structure
  - Easy to Expand Capacity
  - Compatible with Various Standard Inverters

48V Solution

- High Energy 94Ah Prismatic Cell
- High Energy Density & Long Cycle Life
- Available up to 1C-rate
- Fits on 19 inch Standard Rack
- Wide Temperature Range
